

Chiropractic is effective for:

- Low back pain
- Neck pain
- Headaches from the neck
- Migraine prevention
- General aches and pains
- Tension
- Joint pains
- Muscle spasms and cramp
- Aches and pains related to osteo-arthritis

Chiropractic is suitable for:

- All ages and stages of life, from babies and small children to the elderly

Chiropractic is:

- The third largest healthcare profession after medicine and dentistry
- Concerned with the diagnosis, treatment, and prevention of mechanical disorders of the musculo-skeletal system of the back with emphasis on manual treatments including spinal manipulation or adjustment.
- Regulated by the General Chiropractic Council in the UK
- Recognised by most health insurers (BUPA, AXA PPP, Simply Health and most others)

Hands-on Approach

As chiropractors, we specialise in the diagnosis, treatment, prevention and management of conditions arising from mechanical disorders of the musculo-skeletal system, related to the spine.

Chiropractic is derived from the Latin cheiro (by means of the hand) and the Greek praktikos (practical). In keeping with our origins, at Chiropractic Plus we take a hands-on approach to treating your problems, which is drugless and non-surgical.

Our four chiropractors all use various skills including manipulation, mobilisation, soft tissue therapies, massage, acupuncture and dry needling to name but a few. These will usually be accompanied by advice and information on specific exercises, sitting and sleeping postures and diet to aid your recovery.

By drawing on additional therapies and supportive products, we aim to speed your recovery using our three stages of care.

The 3 Stages of Care

There is more to chiropractic than just pain relief and in many cases we progress to corrective work to address the underlying causes of your discomfort.

When you are feeling better, we also recommend regular check-ups to maintain good health and prevent problems from recurring or future issues arising. We call these types of care our three stages of care:

Pain Relief

Stage 1: Easing stiffness, relieving pain to get you moving again. Drugless and non-surgical in approach.

Rehabilitation

Stage 2: Finding and fixing the underlying causes. Building a stronger, more flexible body.

Well Being

Stage 3: Maintaining your health with regular check-ups to help prevent old problems recurring or future issues arising.

Clinic information

We run clinics Monday to Friday at Haxby and Pocklington, Tuesday and Friday at Drifffield and Saturday mornings at Pocklington. We have no waiting lists and aim to see you quickly at a time that suits you. We run evening clinics at Haxby & Pocklington. No referral is required to see our chiropractors.

Local shoppers car parks are close to all three clinics. There is free on street parking at Pocklington and Haxby. Additionally at Pocklington we have a private clinic car park through the archway beside the clinic.

Prices

Our fees for self-funding clients are:

New Patient appointment (40–45 minutes)	£49
Follow up treatment (15–20 minutes)	£32

Payments can be made by card, cash or cheque at the time of appointment.

(Prices correct at time of print.)

A fee may be charged if an appointment is missed or cancelled without 24 hours notice

We also accept insurance including:

BUPA, AXA PPP, Simply Health and most others.

Your First Visit

Please allow up to 45 minutes for this first visit, to allow time for:

- Case history taking
- Thorough physical examination
- Diagnosis
- Treatment care plan to be made
- Informed consent to treatment
- First treatment*

*Occasionally we may need to arrange further investigations, such as MRI scans, or onward referral rather than progress to treatment

Our chiropractors are registered with the General Chiropractic Council and members of the British Chiropractic Association
